

## KS4 Long Term Curriculum Plan: Food Preparation and Nutrition/Year 11 (2023-2024)

### **Curriculum Aim:**

In Food Preparation and Nutrition we aim to prepare students for their GCSE exams whilst equipping students with the knowledge, understanding and skills required to cook and apply the principles of food science, nutrition and healthy eating. We encourage students to cook and enable them to make informed decisions about a wide range of further learning opportunities and career pathways as well as develop vital life skills that enable them to feed themselves and others affordably and nutritiously, now and later in life. Food Preparation and Nutrition prepares students to make informed decisions about further study and progression to Post 16 programmes of study or employment.

### **Link to prior learning:** The subject builds on the Year 10 curriculum and the key areas of learning

Food preparation skills – these are intended to be integrated into the five sections:

1. Food nutrition and health
2. Food science
3. Food safety
4. Food choice
5. Food provenance

**Rationale of sequencing:** This qualification is linear. Linear means that students will sit their exam and submit all their non-exam assessment at the end of the course. Non-exam assessment tasks will be released in Year 11. Practical work will link with non-exam assessment allowing students to demonstrate their knowledge of all five areas of learning.

Autumn 1	Non-exam assessment – Task 1 Food investigation	Research Investigations Analysis and evaluation Understanding of the working characteristics, functional and chemical properties of ingredients Investigate and evaluate how ingredients work and why through practical experimentation, analyse and interpret the results of the investigative work. The results will be linked to the research and data explaining the working characteristics, functional and chemical properties of the ingredient(s).	Research deadline NEA 1 30th September 2023 Investigation deadline NEA 1 21st October 2023 Weekly key term testing Yr11 Data & Progress Check Data 2nd Oct - 16th Oct Yr11 PCE (4-7pm) Thursday, October 5
Autumn 2	Non-exam assessment – Task 2 Food preparation assessment	Knowledge, skills and understanding in relation to the planning, preparation, cooking, presentation of food and application of nutrition related to the chosen task Students will research and analyse the: life stage/dietary group or culinary tradition related to the task., demonstrating technical skill to include a range of complex skills from the range of skills 1-12.	Analysis and evaluation deadline: NEA 1 4th November 2023 Research deadline NEA 2 25th November 2023 Weekly key term testing Year 11 Data Analysis & Intervention 30th Oct - 10th Nov Yr11 PPE's November 27 – December 15, 2023
Spring 1	Non-exam assessment – Task 2 Food preparation assessment	Knowledge, skills and understanding in relation to the planning, preparation, cooking, presentation of food and application of nutrition related to the chosen task Demonstrating technical skill to include a range of complex skills from the range of skills 1-12. Select and use equipment for different technical skills in the preparation and cooking of	Demonstrating technical skills deadline NEA 2 3rd February 2024 Planning the final menu deadline NEA 2 24th February 2024 Making the final dishes deadline NEA 2 31st March 2024 Weekly key term testing Yr11 (2) PCE (4-7pm) Thursday, January 25, 2024

		selected dishes. Food safety principles should be demonstrated when storing, preparing and cooking.	
Spring 2	Non-exam assessment – Task 2 Food preparation assessment	<p>Knowledge, skills and understanding in relation to the planning, preparation, cooking, presentation of food and application of nutrition related to the chosen task</p> <p>Planning the final menu, justify the appropriateness of the final dishes in terms of eg technical skills, nutrition, ingredients, cooking methods, food provenance, sensory properties and portion size, produce a detailed time plan for the production of the final three dishes including appropriate techniques. Within the plan, food safety principles will be demonstrated when storing, preparing, cooking and presenting the final dishes</p> <p>Making the final dishes to include a range of complex skills from the range of skills 1-12 Students will be rewarded for the use of a range of technical skills and the quality of outcomes achieved. The complexity and challenge of the dishes produced is linked to the complexity of the skills involved in producing the dish.</p> <p>Analysis and evaluation, students will carry out sensory evaluation and record the results for all of their practical dishes. For the final dishes, students will carry out and record nutritional analysis, costing and identify improvements to their dishes.</p>	<p>Analysis and evaluation deadline NEA 2 31st March 2024</p> <p>Completed final project (with corrections) NEA 2 31st March 2024</p> <p>Weekly key term testing</p> <p>Yr11 PPEs March 4 – 8, 2024</p> <p>KS4 Entry Data 11th Mar - 25th Mar</p>
Summer 1	Exam	Revision techniques	Final GCSE Exam Paper 1: Food preparation and nutrition 1h 45m 19 June 2024 am
Summer 2	Study leave	Study leave	Study leave

#### Further Information

The Course Specification: <https://www.aqa.org.uk/subjects/food/gcse/food-preparation-and-nutrition-8585/specification-at-a-glance>  
 website: <https://www.chace.enfield.sch.uk/curriculum-technology/>

#### **In Food Preparation and Nutrition students will develop the knowledge and skills to:**

- demonstrate effective and safe cooking skills by planning, preparing and cooking using a variety of food commodities, cooking techniques and equipment
- develop knowledge and understanding of the functional properties and chemical processes as well as the nutritional content of food and drinks
- understand the relationship between diet, nutrition and health, including the physiological and psychological effects of poor diet and health
- understand the economic, environmental, ethical, and socio-cultural influences on food availability, production processes, and diet and health choices
- demonstrate knowledge and understanding of functional and nutritional properties, sensory qualities and microbiological food safety considerations when preparing, processing, storing, cooking and serving food
- understand and explore a range of ingredients and processes from different culinary traditions (traditional British and international), to inspire new ideas or modify existing recipes
