

KS3 Long Term Curriculum Plan: Art year 7

<u>Curriculum Aim:</u> ● Produce creative work, exploring their ideas and recording their experiences. ● Become proficient in the use of the formal elements and other Art, Craft and Design techniques. ● Evaluate and analyse creative works using the language of Art, Craft and Design. ● Know about artists, craft makers, architects, and designers, and understand the historical and cultural development of their art forms.			
<u>Link to prior learning:</u> The year 7 curriculum builds upon the KS2 Art National Curriculum, further embedding skills. KS2 aims to ensure that all pupils: produce creative work, exploring their ideas and recording their experiences, and become proficient in drawing, painting, sculpture and other art, craft, and design techniques. Evaluate and analyse creative works using the language of art, craft and design, know about great artists, craft makers and designers, and understand the historical and cultural development of their art forms. Active participation is built into all lessons, through crits, sharing ideas, discussion and tutorials.			
<u>Rationale of sequencing:</u> The initial project ensures that the formal elements are covered as these are the building blocks of art and give students a solid foundation. The technical processes explored will give students the knowledge and understanding needed in order to be successful within these topics and all future units, which will embed and extend skills learnt.
