Freedom of Information Act 2000

This is Chace Community School's Publication Scheme on information available under the Freedom of Information Act 2000.

The Freedom of Information Act 2000 (FoI) came fully into force on January 1 2005. Under the Act, any person has a legal right to ask for access to information held by the school. They are entitled to be told whether the school holds the information, and to receive a copy, subject to certain exemptions.

This publication scheme has been adopted in accordance with the model scheme published by the Information Commissioner's Office.

This publication scheme commits Chace Community School to make information available to the public as part of its normal business activities. The information covered is included in the classes of information mentioned below, where this information is held by the School. Additional assistance is provided to the definition of these classes in sector specific guidance manuals issued by the Information Commissioner.

The scheme commits the school:

- To proactively publish or otherwise make available as a matter of routine, information, including environmental information, which is held by the school and falls within the classifications below.
- To specify the information which is held by the school and falls within the classifications below.
- To proactively publish or otherwise make available as a matter of routine, information in line with the statements contained within this scheme.
- To produce and publish the methods by which the specific information is made routinely available so that it can be easily identified and accessed by members of the public.
- To review and update on a regular basis the information the school makes available under this scheme.
- To produce a schedule of any fees charged for access to information which is made proactively available.
- To make this publication scheme available to the public.
- To publish any dataset held by the authority that has been requested, and any updated versions it holds, unless the authority is satisfied that it is not appropriate to do so; to publish the dataset, where reasonably practicable, in an electronic form that is capable of re-use; and, if any information in the dataset is a relevant copyright work and the public authority is the only owner, to make the information available for re-use under the terms of the Re-use of Public Sector Information Regulations 2015, if they apply, and otherwise under the terms of the Freedom of Information Act section 19. The term 'dataset' is defined in section 11(5) of the Freedom of Information Act. The term 'relevant copyright work' is defined in section 19(8) of that Act.

Charges which may be made for Information published under this scheme

The purpose of this scheme is to make the maximum amount of information readily available at minimum inconvenience and cost to the public. Charges made by the school for routinely published material will be justified and transparent and kept to a minimum.

Material which is published and accessed on a website will be provided free of charge, although you may incur costs from your Internet Service Provider.

Charges may be made for information subject to a charging regime specified by Parliament. The Information Commissioner's Office (ICO) provides an exemption, known as the 'appropriate limit', if the cost of providing the information exceeds £450 (not including stationery, printing or postage). This limit is based on 18 hours officer time at a rate of £25 per hour. We will not provide the information requested if this exemption applies. However, we will tell you what information could be provided within the cost limit.

Charges may be made for actual disbursements incurred such as:

- Photocopying
- postage and packaging
- the costs directly incurred as a result of viewing information

Unless specified otherwise we will normally charge for stationery, printing and postage costs if they are more than £25. We do not usually charge if they are less than this. However, if you make more than one request in a 12 month period and the cumulative cost of providing the information is more than £25, we will charge you for these costs in that period.

If our stationery, printing and postage costs are more than £25, we will charge if:

- the information is not available in electronic format;
- the information is available in electronic format, but you want us to send you a paper copy

Charges may also be made for information provided under this scheme where they are legally authorised, they are in all the circumstances, including the general principles of the right of access to information held by public authorities, justified and are in accordance with a published schedule or schedules of fees which is readily available to the public.

Charges may also be made for making datasets (or parts of datasets) that are relevant copyright works available for re-use. These charges will be in accordance with the terms of the Re-use of Public Sector Information Regulations 2015, where they apply, or with regulations made under section 11B of the Freedom of Information Act, or with other statutory powers of the public authority.

We will charge 5 pence per page, plus standard second class postage rates (if the costs of providing the information are more than £25 in a 12 month period).

If a charge is to be made, confirmation of the payment due will be given before the information is provided. Payment will be requested prior to provision of the information. We will tell you how much you need to pay, how to pay, and when we need to receive your payment by. We will hold your request as pending until we receive your payment. We will wait up to 1 month to receive your payment. If we do not receive your payment by the due date, we will close your request. If you still require the information after this date, you will need to make another FOI request.
